

MASTER PROJECT PLAN: Organic Skincare SEO & Content Strategy

Phase 1: Content & On-Page SEO Assets

SEO Title: Organic Skincare Products: The Ultimate Guide to Natural Beauty

Meta Description: Discover top-rated organic skincare products for radiant skin. Our sustainable beauty guide covers natural ingredients and effective anti-aging routines.

Target Product Description (300-500 Words)

This high-performance serum represents the pinnacle of *organic skincare products*. Formulated for executive recovery, it combines Jojoba Oil and Green Tea to target *skin texture* and *anti-aging* concerns. Our commitment to *sustainable beauty* ensures 95% organic ingredients, ideal for sensitive skin.

Phase 2: Technical SEO & Site Audit Actions

- Identified issues from us.linkorganic.com audit to fix on your site:
- Eliminate Duplicate Title Tags: Each page must have a unique 60-character title.
- Image Optimization: Convert all images to WebP format for <2s load times.
- Implement Schema Markup: Use Product and Article JSON-LD code provided.
- Fix Content Gaps: Avoid thin content; maintain 350+ words per product page.

Phase 3: Authority & Backlink Roadmap

- Outreach Targets:
- High DR Wellness Media: MindBodyGreen, Well+Good, Byrdie.
- Eco-Certifications: USDA.gov, Ecocert.com mentions.
- Strategy: Use "Skyscraper Technique" to outrank competitor resource lists.

Phase 4: Data Visualization & Measurement

- Looker Studio Actions:
- Upload "Master Keyword CSV" via File Upload Connector.
- Create Treemap for Volume by Cluster.
- Create Scatter Chart for Keyword Priority (Volume vs Difficulty).
- Connect Google Search Console to track live ranking trends.

Final Implementation Checklist

1. Setup WordPress SEO Plugin
2. Install SSL Certificate
3. Generate Sitemap
4. Paste Schema Markup Code
